

Warsaw, 27th June 2017

**Mr. Donald Trump**  
**President of the United States of America**

Dear Mr. President,

We are thrilled to hear that you have chosen the vicinity of the Academy of Theatre to address the Polish people. We take it as a gesture of respect for Polish Theatre and the iTSELF Festival, happening on a very same date and marked by your great presence.

You'd be delighted to know that at the time of your speech, a group of American actors from Lee Strasberg Studio in New York and Michigan University will be performing on stage during iTSELF Festival at our Academy. Moreover, less than quarter of a mile from your podium, candidates for musical theater faculty, will be singing unforgettable tunes from some of the best American musicals. Unfortunately, all the security measures imposed on the whole area left us with no hope for the audience but your secret service agents. Had we know this upfront, we would have rescheduled the festival for another date, but your visit, Mr. President took us by surprise.

You see, Mr. President, we have respect for the purpose of your visit and address to the Polish nation like we have the utmost respect for the American culture. We expect no more than reciprocity and maybe small gratification for our own cultural efforts. Can we count on your support, Mr. President?
